

SWEET CLOVER

2024 DESIGN TEAM APPLICATION

Interested in joining our Design Team? Please complete this application (or follow the application link on our website) and email it to sweetclover@sweetcloverbarn.com.

Sweet Clover is a collaborative vendor business model. Our Design Team consists of four to five vendor businesses collaborating within the whole of the space. A member of the Design Team would work closely with the other members to stock, stage, and curate the bulk of the shop. Our shop is a mix of vintage and new home décor, gifts, vintage clothing and lifestyle items. Those with experience in retail ownership, home décor and/or vintage are appreciated. However, the ideal candidates are those with a “good eye” who know what the current market wants and can work collaboratively with a dynamic and style focused group. Bonus points if you’re funny.

This position does not require daily or weekly “retail work”. Design Team members are asked only to volunteer twice a month in addition to monthly set up and restock as needed. Team members are also asked to be present for events, if and when possible. Maintaining an active presence on social media to promote themselves and the shop is also important.

Please upload photos of an accurate representation of your work. It’s important to show both items and how you would display them. If you do not have representative photos, a design mood board can be submitted. Applications received without photos will not be considered.

This application is for Design Team only. Once your application is received, we will email you directly with additional information.
